# ITEM 7 – CLERKS REPORT AND CORRESPONDENCE

#### Office Illness

Obviously, the big issue this month has been the reminder that Covid is still a thing it took out both members of the office team and also coincided with some leave by one of the team so the office was out of action for 2 weeks. Thank you to everyone for the messages and understanding during this period, I must confess for a few days I did not know which was up. Thankfully, because we are set up and organised the Estates team were able to continue their works without any issues. We are behind with the accounts but at this stage of the year we have plenty of time to catch up.

#### **External Audit**

The external auditor has come back and asked for confirmation of our General Power of Competence status, which we don't have, and that was relayed back. We have had no indication how the external audit is proceeding

# **Summer Project Students**

The summer project students are starting next week and we have been making sure the office is ready to host them with some furniture changes and new IT accounts set up we are looking forward to them starting work on their projects and making a difference to the Council. With it getting closer I am now regularly in contact with them to get them up to date. The new staff have been invited to this meeting so I hope some of them will be present.

# Damage at Hampden Pond – disposable BBQ

We have had a bench fire around the Hampden pond at the end by South Street. 3 disposable BBQs were found in the location. This has been reported to the police and we have a crime reference number. It would not be worth claiming one bench on insurance. The neighbourhood police team have been informed directly and we have done some social media awareness

# Flagstone account – customer platform changes

See the finance report

# Overgrown hedges

Because of the weather conditions we are receiving multiple reports to the office direct or through "fix my street" about hedges overgrowing onto the roads or pavements. Most of the reports are for hedges that seem to be reported every year. We have a standard process to follow and a lot of reports are about to be sent to the Buckinghamshire Council legal team.

# The HS2 Public Meeting

Despite being off ill most of the preparations are in hand for the meeting

# Change of HR and H&S support

We have changed contract to a new HR and Health and Safety company called Supportis. I have been working through the new systems and paperwork to get us up and running. We are now in a position where we can access the HR advisors and the H&S advice team.

# Streetlight turn off

We have been preparing a page of evidence and links relating to the streetlight turn off on our website which should not yet have been published but the links to reports and evidence ended up on our news feed on the website by mistake. This was picked up by a member of the public who highlighted that the evidence seemed to be one sided and also raised some other issues around the general costs of the project, concerns about fear of crime and considering lifespan because of the switching on and off more frequently. We are hoping that these issues will be addressed before we publish the web page.

It should also be noted that a number of Parish Councils in the area are looking at similar projects and so we are keeping each other informed with progress.

# **ITEM 8b – FINANCE REPORTS**

The finance reports show the situation as at the end of May. Because of illness there is not a more recent June report as a lot of June expenditure is being approved at this meeting.

The Flagstone accounts management and dashboard have changed significantly, as is the way they receive payment. The interest is now paid into the accounts on a monthly basis and the fees come from those interest payments. We have been assured the fees have not increased.

Previously the interest payments were made on account maturity or annually and accrued interest was shown but not included in the account balances until it came in. The annual audited accounts would have a figure included for accrued interest in the debtors box on the account statements and balance sheet. This year it was £13k. This has now all come in and is showing on our account balances.

Frustratingly it looks like reconciliation of the activities in our Flagstone accounts have become more difficult and will involve manual calculations by removing the previous months interest payments to get an interest payment for a single month as the statements are a cumulative annual statement.

I am also having difficulty reconciling May and June as the system switched over on the 6<sup>th</sup> June and I have had to request a custom generated statement for May.

One upside of this changeover is that we have seen a lot of interest paid on the accounts instead of showing as accrued interest it is now shown in our individual savings accounts. This has increased our actual savings balance by about £16k. It should be a lot simpler going forward.

There is still little to comment on the I & E at this stage in the financial year.

# ITEM 9a – WENDOVER HS2 MAG

# **HS2 Monthly Report, June '24**

# Works update

- The Ellesborough Road diversion is now due to be completed by 8<sup>th</sup> July; which will enable the removal of the temporary traffic lights.
- We are continuing to press for the re-establishment of a safe cycle route between Dunsmore and Wendover following the closure of the Small Dean Lane Bridleway, including escalation with Bucks Council
- There will be four weeks of nighttime closures of the A413 to complete the final realignment of the road under the Small Dean Viaduct from 22<sup>nd</sup> July to 18<sup>th</sup> August.
- The new water pipe in the field behind Lionel Avenue is due to be buried by the end of September; removing the visual impact of security fencing which caused concern to local residents.

# June WPC activity

- Councillors Williams, Porter and Ballantyne met Bucks Council's HS2 officers to review Land Restoration and Traffic issues.
- Preparations for the HS2 Public Meeting (to be held in the Memorial Hall on 28th June at 19:00) were undertaken, including publicity in local shops and some small street banners.
- Five public issues were handled in the month; including the community impact of the Small Dean bridleway closure, two applications for HS2 funding and further disturbance at Nash Lee Lane.

# **Current Issues**

- Preparation for the "mass haul" movement of spoil from Small Dean to Stoke
  Mandeville appears to have stalled with no progress on excavation of the final
  section of the dump truck route between the old and new Ellesborough Roads. This
  is thought to be due to yet another UK Power Networks cable that needs to be made
  safe. This is likely to cause significant impact to the project timescales.
- Discussion with Bucks Council suggests that they are confident that development of land returned following the HS2 works will be controlled by the existing Planning restrictions in the Green Belt and Natural Landscape (AONB). The land associated with the cottages demolished in Ellesborough Road will be landscaped, along with removal of the old Cricket Pavilion. Provision is to be made for a future cycleway between Ellesborough Road and Nash Lee.
- Diggers have been readied for excavation of the underground wall to divert aquifer groundwater around the North Cutting, now that the Environment Agency has permitted the start of the works.

• A proposal has been made that the Parish Council support the feasibility and costing of an artesian bore hole to boost the water levels in Hampden Pond, prior to seeking HS2 Community Funding of the works.

# ITEM 12a – HAMPDEN POND LEVELS AND RECHARGE

BROUGHT BY		
Wendover HS2 MAG		
SUMMARY		

To consider authorising Wendover HS2 MAG to enter into negotiations with HS2 over options and costings to secure a water supply to the Hampden Pond and maintain levels throughout the year.

#### PARISH COUNCIL BACKGROUND

There have been updates on the status of the pond and potential solutions but no formal decisions have been made yet.

#### **DETAILS**

# **Background**

During the summer months Hampden Pond dries up as the spring is degraded (probably as a result of the by-pass construction) and the water flow into the Wendover Arm Canal is reduced.

For some years WHS2 MAG and WPC have been pursuing HS2 to direct some of their surface rain water collection from the new railway catchment ponds into Hamden Pond rather than build an expensive tunnel under the track bed and divert the water to Stoke Brook. This has been unsuccessful. However the HS2/EKFB hydrogeologist recommended that an Artesian borehole could be made at the pond which could be effective at recharging the pond. In addition, it could boost waterflow (via the overflow to Heron path stream) into the Wendover Arm Canal.

EKFB also suggested that Wendover should pursue HS2 community funding to secure build this Artesian borehole. Each borehole is approximately £15k - £20k.

# St Mary's Church – Water Source Heat Pump

WHS2 MAG have recently consulted with the team running the St Marys Church heat source scheme and in talking to their technical advisor it is clear that anything that Wendover WPC does with maintaining water levels for the pond would improve their heating scheme performance.

However the two schemes are independent of each other. However, It may be that we could use the expertise in securing funding gathered by the church as a borehole will support the Church project

### **FINANCIAL CONSIDERATIONS**

There is no financial commitment at this stage whilst we seek costings but some support from the office will be needed.

# **LEGAL AND OTHER IMPLICATIONS**

As with finance there are no legal implications at this stage. It should be acknowledged that WHS2 will be representing WPC as technical experts in this field of work but no decisions can be made without the approval of Council.

# **PROPOSAL**

- To authorise Wendover HS2 MAG to investigate cost and feasibility of a borehole
- To support the feasibility by formulating a plan to secure HS2 Community Funding
